ORGANIZING DISTRICT-BY-DISTRICT

THE STRATEGY

A team of local activists in every congressional district, working to pass H.R. 3069, the National Improved Medicare for All Act.

WHERE THE IDEA CAME FROM

"You have people in every district, right?" Senator Chris Van Hollen asked us that question at National Single Payer's January 2026 webinar, **"Stop Tinkering Around the Edges!"** District-by-District, sometimes shortened to "D-by-D," is the strategy we are building to meet the Senator's challenge.

HOW IT WORKS

A national law is won by organizing close to home.

1. **Start where people live.** To win National Improved Medicare for All, with profit taken out of healthcare, we need to inform people and move them to act in every district.
2. **Form a team in each district.** We are organizing nearly 1,000 activists from across the country into teams, one for each congressional district.
3. **Let each team set its own plan.** Every team decides what will work best locally: educating and inspiring the public, getting news coverage, or working directly to persuade people in power.

WHERE TO FIND IDEAS

- ✓ **This online Toolkit for Activists,** with ideas your team can use.
- ✓ **The National Day of Action toolkit,** written for the National Day of Action on May 31, 2025.
- ✓ **The National Town Hall recording** (October 14, 2026), an overview of the strategy with examples.

WHERE IT IS WORKING

Teams in three states show what this looks like.

PENNSYLVANIA **5th, 12th, and 17th Districts**

Teams have reached out to their neighbors, met with their legislators or the legislators' staff, and are holding local town halls.

KENTUCKY **4th, 5th, and 6th Districts**

Activists are educating residents, elected officials, and candidates running for office. In rural districts, they are making the case that National Improved Medicare for All can save local hospitals.

NORTH CAROLINA **Every District**

Activists are creating a voter guide, visiting legislators, and educating their communities about National Improved Medicare for All.

We need your help to repeat this work in every congressional district across the country.

LEAD OR JOIN YOUR DISTRICT TEAM

Would you like to train as a District-by-District leader, or take part in your congressional district's team? Email Ana. We will schedule a Zoom meeting to meet you and train you.
